VIVASALT

Halogenerators & salt rooms

From a single halogenerator to a turnkey salt room – designed, developed and tested by our team.

ABOUT US

When knowledge, experience and heart connect

For more than 15 years we have built salt rooms and developed halogenerators. From portable devices for the home to professional wall-mounted units for spas and wellness centres – every VivaSalt product is designed, developed and tested by us.

15+
years of experience

0.3–5 µm
salt particle size

4–5
working days to build a salt room

10
halogenerator models

What a halogenerator does

A halogenerator grinds pure, dry salt into a very fine dry aerosol and blows it into the room. In a salt room it creates the microclimate of a natural salt cave – the walls are decorative, the halogenerator does the work.

Choose a model by the room size and how you will use it: portable units for homes and cabins, wall-mounted units installed outside the salt room, and the SPA Qube as a spa centrepiece.

> Only pure salt without additives is used in our halogenerators. Keep the room humidity below 60 % and ventilate it between sessions.

Specifications may change without prior notice. Images are illustrative. Prices and delivery are arranged by our distributor in your country.

SALT ROOM CONSTRUCTION

We build your salt room – turnkey

We design and build your salt room in 4–5 working days, install the right halogenerator and train your staff. On average 2.5–4 tonnes of natural rock salt are used: walls and ceiling are covered with salt and salt is scattered on the floor.

White salt room

Salt plaster on walls and ceiling – bright and airy.

Himalayan salt room

Built from Himalayan salt bricks with a warm glow.

Combination

White salt plaster with Himalayan brick details.

How we work

01 Consultation
We look at your space, ventilation and how you plan to run the room.

02 Design and offer
Style, lighting, furniture and the halogenerator matched to the room size.

03 Construction
4–5 working days, with our CE-certified salt binder and no metal mesh.

04 Halogenerator
Wall-mounted unit installed outside the room and set up for your sessions.

05 Training and support
Your staff learn operation and cleaning; we stay available afterwards.

Our own binder

We developed our own binder that is mixed with salt. The plaster contains no other building materials and stays breathable.

- Fast construction – 4–5 working days
- A salt layer that stays like new for more than 10 years
- No salt falling off walls or ceiling
- No metal mesh needed on the walls
- No limits on design and decoration
- CE-certified binder made from natural components

WALL-MOUNTED HALOGENERATOR

VIVASALT

mediteran

A professional wall-mounted halogenerator for salt rooms up to 15 m². It is mounted on the outer wall and blows only the finest aerosol through an opening into the room.

IDEAL FOR

Salt rooms in wellness, spa and relaxation centres

36-month warranty

Sold & serviced by local distributors

Advantages

- Mounted on the outer wall – the device stays out of the salt room
- Colour touch screen for precise control
- 10 programs with adjustable time and power
- Whisper-quiet fan
- Parts built for a salty environment – no corrosion
- Same housing and wall opening as all wall-mounted models

Technical data

Room size	**up to 15 m²**
Dimensions (W × H × D)	**325 × 445 × 175 mm**
Weight	**5.5 kg**
Consumption	**96 W**
Power supply	**230 V**
Salt per fill	**30 g**
Programs	**10, adjustable time and power**
Salt particle size	**0.3–5 µm**
Operating humidity	**below 60 %**
Warranty	**36 months**

Mediteran, Comfortable, DUO and Animal share the same 325 × 445 × 175 mm housing, so one wall opening fits every wall-mounted model.

Specifications may change without prior notice. Images are illustrative. Prices and delivery are arranged by our distributor in your country.

WALL-MOUNTED HALOGENERATOR

VIVASALT

comfortable

Our professional wall-mounted halogenerator for salt rooms up to 30 m². A built-in doser dispenses salt according to the aerosol concentration you set, so the device runs long sessions unattended.

IDEAL FOR

Salt rooms up to 30 m², wellness and spa centres

36-month warranty

Sold & serviced by local distributors

Advantages

- Automatic salt doser (150 g) for long unattended operation
- Salt is added through the opening on top – no need to open the device
- Mounted on the outer wall – the device stays out of the room
- Colour touch screen for precise control
- 10 programs with adjustable time and power
- Same housing and wall opening as all wall-mounted models

WALL-MOUNTED HALOGENERATOR FOR ANIMALS

VIVASALT

animal

A device built for animal halotherapy. It produces fine salt particles, with programs designed for pets and horses.

IDEAL FOR

Stables, animal salt rooms and veterinary centres

36-month warranty

Sold & serviced by local distributors

Advantages

- Developed specifically for animals
- Programs for pets, horses and people
- Mounted on the outer wall – the device stays outside the stable
- Salt can be added without disassembly
- Parts built for a salty environment – no corrosion
- Same housing and wall opening as all wall-mounted models

Technical data

Room size	**up to 30 m²**
Dimensions (W × H × D)	**325 × 445 × 175 mm**
Weight	**5.5 kg**
Consumption	**96 W**
Power supply	**230 V**
Salt per fill	**30 g**
Programs	**10 (pets, horses, people)**
Salt particle size	**0.3–5 µm**
Operating humidity	**below 60 %**
Warranty	**36 months**

Mediteran, Comfortable, DUO and Animal share the same 325 × 445 × 175 mm housing, so one wall opening fits every wall-mounted model.

MOBILE HALOGENERATOR

VIVASALT

power

A multifunctional portable halogenerator that can be mounted on the outer wall of a room or a cabin, used in a salt room, or simply placed anywhere in your home.

IDEAL FOR
Homes, small salt rooms and cabins

24-month warranty

Sold & serviced by local distributors

Advantages

- Portable – not tied to one room
- Runs on just over a tablespoon of salt
- Whisper-quiet fan
- Colour touch screen for precise control
- 10 programs with adjustable time and power

Technical data

Room size	**up to 10 m²**
Dimensions	**210 × 155 × 100 mm**
Weight	**1.4 kg**
Consumption	**96 W**
Power supply	**100–240 V**
Salt per fill	**30–40 g**
Programs	**10**
Salt particle size	**0.3–5 µm**
Operating humidity	**below 60 %**
Warranty	**24 months**

All VivaSalt halogenerators grind pure salt into a dry aerosol with particles of 0.3–5 µm.

Specifications may change without prior notice. Images are illustrative. Prices and delivery are arranged by our distributor in your country.

MOBILE HALOGENERATOR

VIVASALT

Lux

A multifunctional portable halogenerator with a distinctive design. It works inside a salt room, a cabin or any other room and is operated through an illuminated colour touch screen.

IDEAL FOR
Salt rooms, studios and homes up to 20 m²

24-month warranty

Sold & serviced by local distributors

Advantages

- Distinctive design for studios and living spaces
- Colour touch screen for precise control
- 10 programs with adjustable time and power
- Portable – not tied to one room
- Whisper-quiet fan

Technical data

Room size	**up to 20 m²**
Dimensions	**335 × 165 × 175 mm**
Weight	**4 kg**
Consumption	**96 W**
Power supply	**100–240 V**
Salt per fill	**30–40 g**
Programs	**10**
Salt particle size	**0.3–5 µm**
Operating humidity	**below 60 %**
Warranty	**24 months**

All VivaSalt halogenerators grind pure salt into a dry aerosol with particles of 0.3–5 µm.

Specifications may change without prior notice. Images are illustrative. Prices and delivery are arranged by our distributor in your country.

MOBILE HALOGENERATOR

VIVASALT family

Our most compact halogenerator. Plug it in, or press ON on the optional remote control, and the session begins.

IDEAL FOR

Salt cabins, bedrooms and small rooms up to 4 m²

24-month warranty

Sold & serviced by local distributors

Advantages

- Compact and light – 1 kg
- Plug in and the session starts
- Three concentration levels
- Optional remote control
- Whisper-quiet fan

Technical data

Room size	**up to 4 m²**
Dimensions	**140 × 120 × 210 mm**
Weight	**1 kg**
Consumption	**96 W**
Power supply	**100–240 V**
Salt per fill	**30 g**
Concentration levels	**3**
Salt particle size	**0.3–5 µm**
Operating humidity	**below 60 %**
Warranty	**24 months**

All VivaSalt halogenerators grind pure salt into a dry aerosol with particles of 0.3–5 µm.

Specifications may change without prior notice. Images are illustrative. Prices and delivery are arranged by our distributor in your country.

MOBILE HALOGENERATOR

VIVASALT 12h

A halogenerator built for long, continuous operation. The feeder doses salt into the mill at intervals, so the device can run for up to 12 hours on a single fill.

IDEAL FOR

Continuous operation in salt rooms, homes and offices

24-month warranty

Sold & serviced by local distributors

Advantages

- Up to 12 hours of continuous operation on one fill
- Three concentration levels: LOW, MEDIUM, HIGH
- Plug in and the session starts
- Whisper-quiet fan
- Maintenance-free design – just regular cleaning

Technical data

Room size	**up to 30 m²**
Dimensions	**350 × 300 × 130 mm**
Consumption	**96 W**
Power supply	**100–240 V**
Continuous operation	**up to 12 h**
Concentration levels	**3**
Salt particle size	**0.3–5 µm**
Operating humidity	**below 60 %**
Warranty	**24 months**

All VivaSalt halogenerators grind pure salt into a dry aerosol with particles of 0.3–5 µm.

Specifications may change without prior notice. Images are illustrative. Prices and delivery are arranged by our distributor in your country.

MOBILE HALOGENERATOR FOR ANIMALS

VIVASALT

animal portable

The portable version of our animal halogenerator. It is placed directly in the stable, box or room where the session takes place.

IDEAL FOR

Stables, boxes, kennels and veterinary practices

24-month warranty

Sold & serviced by local distributors

Advantages

- Developed specifically for animals
- Programs for pets, horses and people
- Portable – moves between boxes and rooms
- Colour touch screen for precise control
- Whisper-quiet fan

Technical data

Room size	**up to 20 m²**
Dimensions	**335 × 165 × 175 mm**
Weight	**4 kg**
Consumption	**96 W**
Power supply	**100–240 V**
Salt per fill	**30–40 g**
Programs	**10 (pets, horses, people)**
Salt particle size	**0.3–5 µm**
Operating humidity	**below 60 %**
Warranty	**24 months**

All VivaSalt halogenerators grind pure salt into a dry aerosol with particles of 0.3–5 µm.

Specifications may change without prior notice. Images are illustrative. Prices and delivery are arranged by our distributor in your country.

SALT SPA

VIVASALT

spa qube

A spa element that combines a halogenerator with a cube of natural salt stones. The aerosol is blown into the room through the glowing salt stones.

IDEAL FOR

Spa and wellness areas, relaxation rooms, homes

24-month warranty

Sold & serviced by local distributors

Advantages

- Glowing natural salt stones
- Plug in and the session starts
- Whisper-quiet fan
- Maintenance-free design – just regular cleaning

Technical data

Room size	**up to 30 m²**
Dimensions	**600 × 600 × 690 mm**
Weight	**20–110 kg**
Consumption	**96 W**
Power supply	**100–240 V**
Salt per fill	**30 g**
Salt particle size	**0.3–5 µm**
Operating humidity	**below 60 %**
Warranty	**24 months**

All VivaSalt halogenerators grind pure salt into a dry aerosol with particles of 0.3–5 µm.

Specifications may change without prior notice. Images are illustrative. Prices and delivery are arranged by our distributor in your country.
