

Salt room construction

We design and build your salt room in 4–5 working days, install the right halogenerator and train your staff.

200+
salt rooms built in Europe and the USA

4–5 days
from bare room to finished salt room

10+ years
salt layer stays like new

2.5–4 t
of natural rock salt per room

THREE STYLES

Choose the look of your salt room

White salt room

Salt plaster on walls and ceiling – bright and airy.

Himalayan salt room

Built from Himalayan salt bricks with a warm glow.

Combination

White salt plaster with Himalayan brick details.

From the first call to the first guest

01 Consultation
We look at your space, ventilation and how you plan to run the room.

02 Design and offer
Style, lighting, furniture and the halogenerator matched to the room size.

03 Construction
4–5 working days, with our CE-certified salt binder and no metal mesh.

04 Halogenerator
Wall-mounted unit installed outside the room and set up for your sessions.

05 Training and support
Your staff learn operation and cleaning; we stay available afterwards.

Our own binder

We developed our own binder that is mixed with salt and is CE-certified. The salt plaster contains no other building materials and stays breathable.

- Fast construction – 4–5 working days
- A salt layer that stays like new for more than 10 years
- No salt falling off walls or ceiling
- No metal mesh needed on the walls
- No limits on design and decoration
- CE-certified binder made from natural components
